

Project Executable Files

Date	30 June 2026
Team ID	
Project Name	A Comprehensive Measure of Well-Being

Project Executable Files

This section requires submission of all executable and deployable files for your project. Ensure all files are properly organized, named, and uploaded to the specified submission platform. The evaluator must be able to run or deploy your solution using the provided files and instructions.

Step 1: Submission Checklist

S.No	Item to Submit	Submitted (Yes / No / NA)
1	Complete source code (all files and folders)	Yes
2	README / Setup Guide (instructions to run the project)	yes
3	requirements.txt / package.json / dependency file	Yes
4	Database schema / seed files (if applicable)	NA
5	Environment configuration file (.env.example or similar)	No
6	Deployed application URL (if hosted)	Yes
7	APK / Executable binary (if applicable for mobile/desktop apps)	NA
8	Dockerfile / Containerization config (if applicable)	NA
9	Test files and test results	Yes

10	Demo video or walkthrough (if required)	Yes
----	---	-----

Step 2: File / Folder Structure

Provide an overview of your project's file and folder structure below:

Step 3: Deployment / Access Details

Field	Details
Hosted / Deployed URL	https://a-comprehensive-measure-of-well-being-6fi7.onrender.com
Login Credentials (Demo)	Not Required

Platform / Hosting Provider	Render
Repository Link	https://github.com/AP24110010117/A_Comprehensive_Measure_of_Well_Being
Demo Video Link	https://drive.google.com/file/d/1Hkea6VlrtsUg15rXMyDquLX8O9LYAbgP/view?usp=drivesdk

Step 4: Run Instructions

Provide clear, step-by-step instructions for the evaluator to run your project locally:

1. Clone the project repository from GitHub.
2. Open the project in Visual Studio Code.
3. Create and activate a Python virtual environment.
4. Install all required libraries using:

```
pip install -r requirements.txt
```
5. Navigate to the Flask project folder.
6. Run the Flask application:

```
python app.py
```
7. Open your browser and visit:

```
http://127.0.0.1:5000
```
8. Enter the required Human Development indicators and click **Predict** to view the predicted HDI value and Human Development category.

Step 5: Known Issues / Limitations

S.No	Known Issue / Limitation	Workaround / Status
1	Prediction accuracy depends on the quality and size of the training dataset.	Can be improved by using a larger and more recent dataset.
2	The application currently supports only Linear Regression.	Other regression models can be integrated in future versions for comparison.
3	No user authentication or prediction history is implemented.	Can be added as a future enhancement using a database and login system.
