

Project Demo Planning

Date	30 June 2026
Team ID	
Project Name	A Comprehensive Measure of Well-Being

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce the project, objective, and problem statement.	1	Guna Sreeja Thangam
2	Project Overview	Explain the project architecture, workflow, and technology stack.	2	Ravi Teja Para
3	Code & Folder Structure	Demonstrate the project folder structure, dataset, model training, and Flask application code.	2	Gowthami Nallana
4	Live Web Application Demo	Show the home page, prediction page, result page, and perform a live HDI prediction.	3	Guna Sreeja Thangam
5	Results & Deployment	Explain model performance, prediction results, GitHub repository, and Render deployment.	1	Guna Sreeja Thangam
6	Conclusion & Q&A	Summarize the project and answer questions from the evaluators.	1	Gowthami Nallana

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Briefly explain the project objective and the need for HDI prediction.
2	Solution Overview	Describe the architecture, machine learning workflow, and technologies used.
3	Live Feature Demonstration	Demonstrate the Flask web application by entering sample inputs and displaying the predicted HDI score and category.
4	Q&A Session	Answer questions regarding the dataset, model, implementation, and deployment.
