

Coding & Solution

Date	29 June 2026
Team ID	
Project Name	A Comprehensive Measure of Well-Being

Coding & Solution

This section evaluates the quality and completeness of your implemented code and the overall solution. Your submission should demonstrate working functionality, clean code practices, and alignment with your defined requirements.

Instructions:

1. Ensure your code is well-structured, commented, and follows best practices for your chosen technology stack.
2. The solution should address the core problem statement and implement the key functional requirements.
3. Include all source files, configuration files, and setup instructions needed to run the application.
4. Attach or link to your code repository (e.g., GitHub) in the table below.

Solution Summary

Field	Details
Repository Link / URL	https://github.com/AP24110010117/A_Comprehensive_Measure_of_Well_Being
Programming Language(s)	Python, HTML, CSS, JavaScript
Framework(s) Used	Flask, Scikit-learn, Bootstrap
Key Features Implemented	• Data preprocessing and visualization • Linear Regression model training

	• HDI prediction using Machine Learning • Model saved using Pickle • Flask-based web application • Responsive user interface • Deployment on Render
Pending / Incomplete Features	• User authentication • Prediction history • Interactive data visualization dashboard • Download prediction report as PDF
Setup / Run Instructions	1. Clone the GitHub repository. 2. Install the required libraries using pip install -r requirements.txt. 3. Navigate to the Flask project directory. 4. Run the application using python app.py. 5. Open https://a-comprehensive-measure-of-well-being-6fi7.onrender.com in a web browser to use the application.

Code Quality Checklist

S.No	Criteria	Status (Yes / No)
1	Code is modular and organized into functions / classes	Yes
2	Meaningful variable and function names are used	Yes
3	Code includes comments / documentation where necessary	Yes
4	Error handling is implemented for critical operations	Yes
5	The application runs without critical errors	Yes
6	Code is committed to a version control repository	Yes

Additional Notes / Comments:
